GUARANTEE

51 Years of Satisfactory Service

We guarantee all of our plants to be exactly as described in this Catalog. Fresh pulled day order is shipped and packed to carry to your home in good condition; claims to the contrary must be made immediately upon receipt of plants. You will receive full count, no runts, no diseased plants. We grow our plants from the very best seed obtainable. We use seed from Ferry-Morse Seed Co., W. Atlee Burpee Seed Co., and Associated Seed Growers.

We send you only the highest quality plants and gladly stand back of them. After the plants are delivered in good condition, the future progress, thereof is beyond our control and further results cannot be guaranteed. Weather, soil and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

P. D. FULWOOD COMPANY

Strawberries in 60 to 90 days in your growing season.

Delicious—fresh picked, ripe—red strawberries from your own garden. All you can eat for about four months. Small home garden test prove our Strawberry outstanding for bigger crops from limited areas.

PYRAMID[®] CIRCULAR TERRACED GARDEN

Everlasting Aluminum Light Weight-Easy to Handle
Complete with built-in Water Sprinkler

For Strawberries, Flowers, or Vegetables. Built in sprinkler for easy watering. Complete directions sent with each order.

PRICE PREPAID PARCEL POST

Pyramid Garden Bed \$ 9.95 Postpaid
Pyramid Garden Bed with 100 All Red Strawberry Plants \$12.95 Postpaid

Practical and good-looking Pyramid Garden Beds are the answer. You can enjoy a large yield of Strawberries in one-third the space required by conventional garden methods. They keep the Strawberry Plants elevated pyramid fashion for quicker and bigger harvests. Easy to pick from; simple to care for. The bottom ring is 6 feet in diameter with three planting terraces.

THE EARLIEST CABBAGE KNOWN

**New 53 Day Yellows Resistant Golden Acre
and Earliest Round Red Cabbage Plants**
Field Grown Plants—Frost Proof—
Ready Sept. 1st. to June 15th.

EARLIEST ROUND RED

Colorful and tasty variety just right for adding color to your table. For cooking or making slaw and adding to mixed green salad. The globular heads are rich purplish-red. Heads start forming early and are suitable for use when very small. This makes it ideal for picking over a long season.

PRICES: Earliest Round Red and Early 53 Day Golden Acre Cabbage Plants Shipped First Class Mail Postage Paid
25 Plants for \$1.25 50 Plants for \$1.65

EARLIEST GOLDEN ACRE

53 days. 3 lb. head. Yellows resistant. The earliest cabbage known. Best for the home garden. Can be set in the southern states from September to April and in the northern states during March, April and May.

Best varieties selected to produce well
in all parts of the United States.

Dear Sir:

I wish to say the tomatoes are doing just fine, for the old Yankee, "It is all true in your add."

M.E.F. Riverside, Conn.

Dear Sirs:

I received twelve tomato plants last year and we had tomatoes all Summer for ourselves and friends and they lasted until frost. They are certainly the nicest and acid free that we ever raised.

Mrs. V.E. Wabash, Ind.

FULWOOD'S CABBAGE PLANTS

READY SEPT. 1ST. TO JUNE 15TH.

FROST PROOF

Certified by
State Department
of Entomology

EARLIEST ROUND RED: 64 days, 2 lb. head. Colorful variety and just right for making red slaw and adding color and taste to mixed salads. Heads globular and weigh 2 lbs. at maturity, rich purplish-red. Heads begin forming early and are suitable for use when very small. This makes it ideal for long picking season.

EARLY COPENHAGEN: 66 days, 3 lb. head. Most widely used shipper where earliness is essential. Uniformly round and firm with clean white interiors. Gray-green leaves.

GOLDEN ACRE: 65 days, 3 lb. head. Uniformly round, clear white interiors.

FERRY'S ROUND DUTCH: 71 days, 5 lb. head. Shows considerable tolerance to mildew injury and cold weather. Almost ball shaped, firm high quality. Slow to develop seeders.

CHARLESTON WAKEFIELD: (Y. R.) 71 days, 4 lb. head. Sharp head variety desirable for home garden.

EARLIEST GOLDEN ACRE: (Y. R.) 53 days, 3lb. head. Yellows resistant. The earliest cabbage known. Best for the home garden. Can be set in the southern states from September to April and in northern states during March, April and May.

RESISTANT DETROIT: (Y. R.) 68 days, 3½ lb. head. Yellows Resistant strain of the Golden Acre. Slightly later and larger.

MARION MARKET: (Y. R.) 72 days, 4 lb. head. Similar to Copenhagen Market, but larger and later maturing plant. Heads round and firm.

GREENBACK: (Y. R.) 74 days, 5½ lb. head. A new cabbage in the Round Dutch class. Slow to produce seed stalks. Especially recommended in market and shipping for areas infected by Yellows.

RESISTANT GLORY: (Y. R.) 77 days, 6½ lb. head. Heads round and firm.

COPENHAGEN RESISTANT: (Y. R.) 73 days, 4¼ lb. head. Important market and shipping cabbage. Uniformly round, firm and slightly bluish green color.

COLLARD PLANTS: Vates — Delicious boiling greens. You gather the lower leaves and boil them. Plants continue to grow until heavy freeze.

PRICES: Same as Cabbage Plants—See below.

PRICES ON CABBAGE AND COLLARD PLANTS

BURPEE'S BIG BOY®

GIANT F-1 HYBRID

TOMATO PLANTS

Field Grown Plants — Ready February, March, April, May and June.

Plants grown from originator's seed stock. A true first generation hybrid from hand pollenizing each flower.

Big Boy® is the largest of our hybrid tomatoes. Smooth, round, and very firm; many weigh over 1 lb. each. Scarlet-red color, thick walls, with bright red, meaty flesh of fine flavor and excellent quality. These sturdy hybrid plants grow faster, bear heavier, and for a longer season. You haven't tasted good tomatoes until you eat home grown vine ripened tomatoes. Plants grown from Burpee's Big Boy® Giant F-1 Hybrid Tomato Seed that retail at about \$60.00 per ounce.

(Reg. U. S. Patent Office, —W. Atlee Burpee Seed Co.)

GEORGIA RED SWEET POTATO PLANTS

Not Frost Proof—Ready for shipment about April 1st to July 1st.

GEORGIA RED: New vigorous, vine type sweet potato variety released by the Georgia Coastal Plain Experiment Station in 1955. Is a coppery-red-skinned potato with light orange flesh of soft moist texture. Has medium length vines. Produces a satisfactory yield in 110 days. In 183 days this potato averaged 457.85 bushels per acre under good growing conditions. Excellent eating quality. Excels as a baking potato.

Best varieties selected to produce well
in all parts of the United States.

Dear Sirs:

I want you to know the plants I ordered from you last Summer were the best I have ever had. I had tomatoes right up to frost and later, as I pulled up the vines and hung them in my Basement and believe it or not I had tomatoes for my Christmas dinner right out of my Garden.

Mrs. L.B.F. Strasburg, Va.

Sensational **F₂ OF HYBRID CLIMBING TOMATO PLANTS**

**HEAVY BEARING TILL FROST! BEAUTIFUL!
DELICIOUS! EASY TO GROW! WELL ROOTED
OPEN FIELD GROWN PLANTS! EARLY TO BEAR!
BIG JUICY TOMATOES**

Plants ready to ship in February, March, April, May and June
Amazing F₂ of Hybrids bear heavily right up to frost—Beautify fences, trellises with bushels of juicy, best-tasting tomatoes. Fragrant, colorful—You get guaranteed healthy, well rooted plants that will give you bushels of tomatoes and continue to bear fruit all summer long until frost. Plenty of big, delicious, firm, juicy tomatoes for your table month after month, with enough left over for relatives and friends. You haven't tasted good tomatoes until you eat home grown, vine ripened tomatoes.

TAKE LITTLE SPACE—NEEDS VERY LITTLE CARE!

These genuine F₂ of the Hybrid Climbing Tomatoes climb up fences and trellises—or staked, they make beautiful borders. No stooping, no bending to pick them. No midseason droop like ordinary tomato plants! You can grow delicious tomatoes on vines 10 to 15 feet tall.

READ WHY THOUSANDS OF CUSTOMERS PREFER FULWOOD'S FIELD GROWN VEGETABLE PLANTS

For 51 Years we have been growing the very finest, field-grown vegetable plants and shipping to all parts of the United States.

You will find us well rated in the following reference books. Dun and Bradstreet, Inc.; The Packer Red Book; The Produce Reporter Blue Book. Our local bank—The Bank of Tifton.

We use the very best seed from such well known firms as W. Atlee Burpee Seed Company, Ferry-Morse Seed Company and Associated Seed Growers.

We use hybrid seed wherever possible. Vegetables from hybrid seed grow faster, produce more and better flavored vegetables than other varieties and over a longer period. Hybrid seed cost more—some as much as \$60.00 an ounce. Therefore, we have to charge more for these hybrid plants. You will find these plants are worth more.

Our plants are grown in the open field and on sterilized soil. They are weather hardened, sturdy plants that grow and produce better than hot-house or home grown plants.

We do an enormous Parcel Post business. We guarantee the plants to reach you in fresh planting condition. Small orders are shipped First Class Mail. Larger orders are shipped Special Handling Mail which gets the plants to you the second or third day after they are pulled from the field.

For packing and shipping our plants we use special made boxes for Parcel Post and Express shipments. We use the best packing methods recommended by the United States Department of Agriculture.

Large orders of 5,000 plants or more can be shipped Air Freight. It will cost 50% to 75% per thousand plants more for air transportation than railway express. You can order plants one day and get them the next day at your nearest major airport. We ship by railway express and truck loads. We load hundreds of trucks coming to our fields every season.

Our farms join fences with the Georgia Coastal Plain Experiment Station and the Georgia Department of Entomology. We have their constant advice and supervision and inspection service.

Do not order plants C. O. D. as this will cost you more money and shipments are sometimes delayed.

If you mail your order well in advance (stating the date you want shipment made) it will help us to give you better service.

Gentlemen:

Last year I ordered twelve climbing tomato plants, I can truthfully say they were all you advertised. They had tomatoes until our first frost the last week in November, in fact at the time of the frost they were full of blooms, green tomatoes and ripe tomatoes. I picked over 100 green tomatoes that night and every single one ripened gradually and I didn't lose a single one.

Mrs. H. D., Glen Allen, Va.

Certified

Certified by the State Department of Entomology
Ready March 1st to June 30th

TOMATO VARIETIES:

VALIANT: 69 days. Adapted to short season areas and early market. Plant sparse and open; fruits bright scarlet; large globe shaped.

RUTGERS: 80 days. An excellent all-purpose variety. Partially resistant to fusarium wilt. Fruit globular, bright red, smooth, with thick walls and small seed cells.

WILT RESISTANT TOMATO VARIETY:

CAMPBELL'S NO. 146: (W.R.) 69 days. A standard (Rutgers) type vine, medium early, large globular fruit (larger and deeper than Rutgers), fusarium wilt and mosaic resistant with some resistance to cracking. A very good tomato for the market trade and garden use, particularly in wilt infested soils.

Dear Sir:

Last year we ordered the Climbing Tomato plants and I planted them right here in my yard and I had enough tomatoes to keep four or five families with tomatoes all Summer.

Mr. A. H. T. Baltimore 25, Md.

Dear Sirs:

I truly enjoy my plants every year. This is my third year to order them. I only have a small garden, it is such a pleasure to go out and get such beautiful tomatoes. I just can't say enough about them.

F-1 HYBRID EGGPLANT PLANTS

Field Grown Plants—Ready March 15th to June 30th.
Not Frost Proof

True First Generation
Grown from Burpee's Seed
that retail for \$18.00
per ounce.

EARLY F-1 HYBRID EGGPLANT

More resistant to drought and disease than any commercial variety. True, first generation (F-1) hybrid of outstanding qualities. The plant is tall, tree-like, semi-spreading in habit, vigorous and produces continuously many fruits which are oval, medium sized, and of a good dark purple color and high gloss. Most fruits do not touch the ground. Can be planted close together and staked—they will climb 4 to 6 feet.

Delicious, Tender Eggplant. Order some of these plants and grow the best eggplant you ever tasted.

Free instructions how to grow sent with each order.

Gentlemen:

Last year a friend of mine gave me several of your Big Boy hybrid tomato plants and I had such good luck with them that I would like to get some more this year. They had such big tomatoes and the vines bore up until the last week in October when a heavy frost killed them. I took over a bushel of green tomatoes from three vines and put them in the basement to ripen. We were still eating tomatoes (ripe) in December.

HEMEROCALLIS (DAYLILIES) AND BLUE LIRIOPE

THE BIG BLUE LIRIOPE

Used to border walks and beds, on slopes to prevent washing, as a ground cover, in porch boxes and as potted plants. Averages 8 to 12 inches in height and spread.

Can be planted anywhere and at any time. Plants multiply rapidly. Has beautiful lavender-blue flowers over a long season. It is easy to grow. Can be planted any month of the year. It will grow right up against a large tree in dense shade as well as in full sun.

We also have the small leaf Liriope variety used to cover the ground on slopes. It needs no mowing. Write for prices on large quantities by express.

GROWERS AND SHIPPERS OF HIGH GRADE VEGETABLE PLANTS SINCE 1909
51 YEARS OF SATISFYING SERVICE

CAULIFLOWER PLANTS

FROST PROOF

Ready Jan. 1st. to June 1st.

FERRY-MORSE SNOWBALL X:

Best and most widely used variety. Our Cauliflower plants are hardy and may be set earlier than home-grown plants. Excellent for cooking, or raw in salads.

BEET PLANTS

Ready Jan. 1st.
to June 1st.

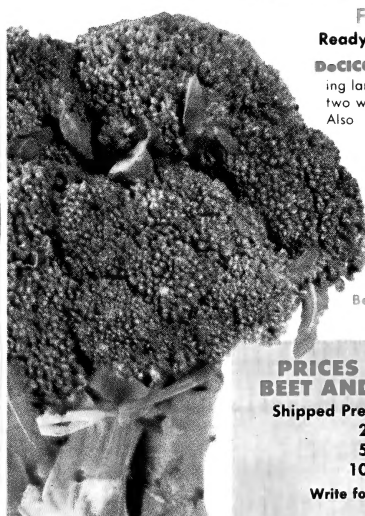

FROST
PROOF

DETROIT DARK RED, FERRY'S STRAIN: The most widely used for home and market garden. Beets are easy to grow and are not seriously affected by insects or diseases.

BROCCOLI PLANTS

FROST PROOF

Ready Jan. 1st. to June 1st.

DeCICCO: An extremely early strain producing large heads ready for market ten days to two weeks ahead of Early Green Sprouting. Also furnishes a high percentage of side shoots or sprouts excellent for bunching or for freezing. Plants medium tall, light green in color, and very productive. Our stock of this strain has been carefully selected for uniformity and can be highly recommended as the best early strain of Broccoli obtainable.

Best varieties selected to produce well
in all parts of the United States.

FULWOOD'S TOMATO PLANTS

BURPEE'S *Sensational*

F-1 GIANT HYBRID

BIG BOY®

**-MOST POPULAR OF ALL-
FIELD GROWN PLANTS**

Ready February, March, April, May and June

A delicious tomato. Smooth, round, red tomatoes and so heavy they often weigh over 1 lb. each. These sturdy hybrid plants grow faster, bear heavier, and for a longer season. The most advertised Tomato in the world.

Grown from Burpee's Big Boy* Giant F-1 Hybrid Tomato Seed that retail at around \$60.00 per ounce. The largest tomato you ever saw. Will bear fruit until frost.

You haven't tasted good tomatoes until you eat home grown, vine ripened tomatoes.

® (Reg. U.S. Patent Office - W. Atlee Burpee Co.)

duster twice), postpaid 1.50

Blossom-set

Make TOMATOES Ripen
1 to 3 WEEKS EARLIER!

You'll pick **RIPE** tomatoes. **WEEKS EARLIER** than your neighbor! **BIGGER** yields of **LARGER, MEATIER**, more **DELICIOUS** TOMATOES, **SEEDLESS** TOMATOES, too!

NO-SEED HORMONE

Easy To Use!

Just Spray!

**STOPS BLOSSOM-DROP!
MAKES BLOSSOMS SET FRUIT!**

Early tomato blossoms often drop off the plants without setting fruit if they are not pollinated properly, especially early in the season when nights are cool. **BLOSSOM-SET** keeps blossoms on the plants; starts fruit development immediately by chemical stimulation of the flowers. These flowers set fruit instead of dropping off; develop into ripe tomatoes **WEEKS EARLIER** than unsprayed flowers. The tomatoes are larger, meatier, firmer, and better tasting. **YOU'VE NEVER TASTED SUCH WONDERFUL TOMATOES**; with better shape and color and more on each plant. Many are **SEEDLESS** because fruit is set chemically, not by pollen.

Convenient, easy way to spray. Just push the button and — WHOOSH — as easy as that! 12 oz. ready-to-use can (season's supply for 100 plants) . . Postpaid only \$1.95.

PLANTABBS

Complete Plant Food — Easy to Use. Everything that grows in soil grows better with Plantabbs.

Plantabbs contain in concentrated form the same rich food and fertilizing elements used by professional plant and flower growers, landscape gardeners and truck farmers. These clean, odorless, "nuggets of nourishment" make everything that grows in soil healthier, bigger, more beautiful. Will not burn or damage even the tenderest plants.

Nothing to measure or spill. Every week or 10 days, just push a Plantabb into the soil 2 or 3 inches from stem of plant. Water or let rain dissolve tablet. If you prefer liquid feeding, use one Plantabb per quart of water.

PRICES: PLANTABBS, POSTPAID

**200 Plantabb Tablets for \$1.00
1000 Plantabb Tablets for 3.75**

Use Plantabbs For Beautiful Plants. For Beautiful Flowers. For More Vegetables — All thrive on Plantabbs. Proved through successful use for over 35 years. Thrilling results.
